

American Community Survey and Census 2000 Supplementary Survey Data Release Dates

1999 American Community Survey, 21 of 31 sites* (those areas with a population of 65,000 or more only): release of core tables on American FactFinder and American Community Survey Web site.

July
2000
(completed)

Core tables are the basic population and housing tables which are used to prepare site profiles.

1999 American Community Survey, 21 of 31 sites: release of updated core tables and noncore tables on American FactFinder and American Community Survey Web site.

Winter
2000-2001
(completed)

Noncore tables round out the balance of the total set of tables (which number about 500) for both the American Community Survey and the Census 2000 Supplementary Survey. These tables are not required for the site profiles.

1999 American Community Survey CD-ROM: release of 476 tables for 20 of 31 sites.**

June
2001

2000 American Community Survey, 21 of 31 sites: release of core tables with narrative and tabular profiles on American FactFinder and American Community Survey Web site. (Subsite data will be released Winter 2001-2002.)

Summer
2001

Census 2000 Supplementary Survey: release of core tables for 50 states, District of Columbia, and the country on American FactFinder.

2000 American Community Survey: release of core tables for subsite data (for cities and places with populations of 65,000 or more) on American FactFinder and American Community Survey Web site.

Fall
2001

Census 2000 Supplementary Survey: release of core tables for substate data (for most counties and cities with populations of 250,000 or more) on American FactFinder.

2000 American Community Survey: release of noncore tables for the 21 sites listed below, on American FactFinder and American Community Survey Web site.

Winter
2001-2002

Census 2000 Supplementary Survey: release of noncore tables for 50 states, District of Columbia, and the country on American FactFinder

2000 American Community Survey and Census 2000 Supplementary Survey: release of 500+ tables and Public Use Microdata Samples on CD-ROM/DVD.

Spring
2002
